Clarity Professional XLC3.4

\$159.95

Has Caller ID

The XLCcordless phone with Caller ID amplifies incoming sound up to 50+dB and outgoing speech up to 15dB, making it an ideal solution for severe hearing loss and low speech. Four tone settings, large font and a high contrast screen also assist individuals with low vision and limited mobility.

Hear Clearly:

No Answering Machine

- 50+dB amplification of incoming sounds
- Four tone settings for a customized listening experience
- 15dB outgoing speech amplification for others to better hear you
- Boost override
- Battery backup (batteries included)
- One-touch emergency button
- Answering machine is available
- High contrast Caller ID screen with large font and talking Caller ID
- Illuminated talking dial pad with large buttons
- Belt clip for hands-free mobility
- Can be mounted on the wall to avoid taking up counter or desk space
- Extra loud 95dB ringer with adjustable tones
- Super bright visual ringer with voicemail indicator
- Expansion handsets are available

Amplicom Power Tel 580 Combo	Amplicom Power Tel 680 Combo
\$199.95	\$249.95
Same as 680 but no wrist shaker	Same as 580 but has wrist shaker

The Amplicom PowerTel 580 & 680 is the most versatile amplified telephone on the market. Featuring the unique amplified corded/cordless pairing plus a multipurpose alarm transmitter, the 680 is the perfect solution for seniors or those who need quick dialing or easy answering. Besides the flexibility to talk on either 50dB telephone, users can activate the alarm button on the splash-proof wrist device which will dial pre-programmed numbers at the touch of a button in case of an emergency. There are no contracts to sign up for, and can offer the elderly or individuals living alone additional security and peace of mind. Additionally, users can be notified of incoming calls through a vibration of the wrist device, and can even remotely answer calls by activating the speakerphone on the base of the corded phone with the touch of a button. The big button corded base has an integrated digital answering machine, talking buttons and talking Caller ID.

PowerTel 580 and 680

- 50dB amplification
- Answering machine in corded base
- 11 minutes recording time with date/time stamp
- 5 equalizer tone control
- Speakerphone
- Loud 90dB ringer with visual indicator
- Flashing bright LED visual ringers
- Clock and alarm function
- Call Waiting/Caller ID with 30 number recall

- 200 name and number phonebook
- Add up to 4 additional handsets

Wrist shaker (only for 680)

- 600+ ft range
- Vibrates in the event of an incoming call
- Visual LED call signaling
- Activate the speakerphone remotely
- Emergency function
- 50 hours standby
- Water resistant

Clear Sounds Amplifying Emergency Connect Speakerphone – CSC600ER

\$179.95

If you want the best technology has to offer while enjoying the peace of mind you've never had, the CSC600ER Amplifying Emergency Connect Speakerphone is easily programmed to dial up to 6 pre-programmed telephone numbers at the touch of a button. You can even answer the phone, and disconnect, with the pendant. What's more, you don't pay a monthly fee. The handset offers adjustable amplification and full range tone controls which is the key to hearing clearly. The base system is amplified and the ringer can be adjusted up to 95 dB, so you won't miss a call. While the phone delivers this robust set of powerful features, it's designed to consume 50% less power than other amplified phones. Outgoing speech amplification, a large backlit angle-adjustable LCD, 99 name/number Caller ID history, display dial, missed call and voicemail waiting indicators, and more.

Features

- 50db incoming amplification
- 99 name and number phonebook directory
- Big button easy-to-read backlit keypad
- 4 ring tones, 110 dB SPL amplification with full range tone control
- 5 one-touch speed dials
- 1 voicemail speed dial
- 1 large one-touch emergency dial button
- Amplification override reset
- Battery Back-up for Caller ID and phonebook memory
- 95db ringer with visual indicator

No Answering Machine

Emergency (SOS) Features

- Auto dials up to 6 pre-programmed numbers
- Answer and hang-up a call through the pendant
- Recordable outgoing emergency message
- No monthly subscription required

Clear Features

- 1 Amplified speakerphone in base
- Outgoing speech amplification

Geomarc Ampli 600 Remote Controlled Emergency Response Telephone

\$149.95

The Amplified Emergency Connect (AEC) Phone is an amplified phone with Caller ID, speakerphone and remote emergency connect features all in one unit. The emergency connect feature gives you the peace of mind of a security service, without the monthly monitoring fees.

How does the emergency feature work? The AEC becomes an automatic dialer in emergency situations. It comes with a small remote transmitter that can be worn on the wrist like a watch, or attached to a neck lanyard (2-Included). In the event of an emergency, the wearer presses the emergency button on the remote transmitter or phone. Once the emergency button is pressed, the phone numbers of up to six preprogrammed emergency contacts are dialed. These are normally family members, friends or neighbors who would be able to respond to the emergency call. If there is no response after 30 seconds or the line is busy, the phone automatically dials the next preprogrammed phone number. It will cycle through the 6 emergency numbers twice. When the phone reaches a live person, it will play your pre-recorded emergency message. The other person will dial a number (0-9) to confirm that the emergency message has been received and to deactivate the phone from dialing the next emergency contact number. The phone then turns on its speakerphone so that the emergency contact is able to speak and listen to the other user, known as Remote Audio Monitoring.

Benefits

- 50dB incoming amplification
- Outgoing speech amplification (12dB)
- Reduces the anxiety of those living alone
- Provides added security without monthly security monitoring fees

No Answering Machine

Features

- Speakerphone
- Caller ID
- Adjustable Ringer Volume (up to 95dB)
- Emergency dial button
- Strobe Light Ring Flasher
- 6 Speed Dial Buttons

Freedom Alert Emergency Alerting device
--

\$279.95

The Freedom Alert Emergency Alerting Device gives you independence and peace of mind when you know that you can immediately contact family, friends or neighbors when an emergency prevents you from reaching the phone. Push the button on the wearable Freedom Alert pendant and have instant 2-way speakerphone communication at anytime or anywhere around your home. If your programmed contacts are unreachable at the moment, the system can default to contact a 911 emergency operator. FreedomAlert is a one-time purchase—no monthly fee, service charges or contracts.

FreedomAlert not only allows you the complete freedom to live independently in your own home, but also works at your friends or families home too—anywhere with a regular phone line.

Set-up is simple, just plug in the phone cord and power adaptor and program contact numbers using your touch-tone phone.

No Answering Machine

Features:

- Water resistant
- Voice prompted system
- VoIP Compatible
- Includes two rechargeable Lithium-ion batteries, allowing you to charge one while the other is in use
- Up to several hours of talk time and several months stand-by time with one battery charge
- Battery back-up (4 NiMH rechargeable batteries included)
- Use with lanyard, wrist strap or belt clip

FotoDialer Telephone Companion

\$59.95

The FotoDialer is an accessory to any analog telephone where the user makes calls by pressing a photo. There are six pages with four slots per page, for a total of 24 programmable numbers. When the user wants to make a call, they push the button next to the photo of the person or place they want to call. The FotoDialer, connected to an existing phone, dials the phone number for the user. The numbers stay in memory even if the batteries die or you use the FotoDialer with another phone. This accessory is perfect for the elderly, young, visually impaired, disabled or anyone that wants to make dialing easier.

Features:

- Simplifies calling for those who have difficulty seeing the number pad or dialing the correct phone number sequence
- Valuable safety tool for young children in emergencies
- Works with any analog or digital telephone on an analog (non-VoIP) line
- Holds 24 2" x 3" wallet-sized pictures
- Uses two AA alkaline batteries (not included)
